

POSTER LIST

- P01 Single-cell analysis reveals fibroblast heterogeneity and myofibroblast conversion in ligamentum flavum hypertrophy**
Presenter: Kim J, South Korea
- P02 Elucidating the effect of mechanical stretch stress on the mechanism of ligamentum flavum hypertrophy: Development of a novel in vitro multi-torsional stretch loading device**
Presenter: Kim J, South Korea
- P03 Injectable bioorthogonal hydrogel accelerates tissue regeneration in degenerated intervertebral discs**
Presenter: Han I, South Korea
- P04 Effects of Osmotic Pressure Changes on Piezo1 Expression, Extracellular Matrix Metabolism, and Cell Fate in Rat Nucleus Pulposus Cells**
Presenter: Nakagawa D, Japan
- P05 Effects of Adipose tissue-derived Stem cell Exosome Supernatant on Human Intervertebral disc cells**
Presenter: Ohara K, Japan
- P06 HLA-A*26:01 is associated with vertebral endplate bone-marrow lesions (Modic changes) in chronic low back pain: a novel immunogenetic link**
Presenter: Dudli S, Switzerland
- P07 Anti-CD74 IgA are not associated with Modic changes in the Northern Finland Birth Cohort**
Presenter: Dudli S, Switzerland
- P08 ZDHHC8 Regulates VDAC1 Palmitoylation to Modulate Mitochondrial Metabolic Homeostasis in Nucleus Pulposus.**
Presenter: Wei X, China
- P09 Associations of Genus-Level Microbial Relative Abundance with DNA Methylation Signatures in Human Intervertebral Discs**
Presenter: Dudli S, Switzerland
- P010 Comparative Analysis of Intervertebral Disc and Gut Microbiomes in Germ Free and Specific-Pathogen-Free Mice using full length 16S rRNA Sequencing**
Presenter: Gantenbein B, Switzerland

- P011 Chronic sciatic neuropathy hastens the development and prolongs sensory and hippocampal-dependent memory deficits in a rodent model**
Presenter: Wong A Y L, Hong Kong
- P012 Impact of digestion time and tissue size on the isolation of TIE2+ nucleus pulposus progenitor cells**
Presenter: Schlagenhof L, Switzerland
- P013 Comparison and Optimization of Different Methods for Assessing Cell Viability in Intervertebral Disc Organ Cultures**
Presenter: Muerner M, Switzerland
- P014 Deoxycholic Acid Links Gut Microbiota to a Novel Pro-Inflammatory Adipocyte Phenotype in Modic Type 1 Changes**
Presenter: Dudli S, Switzerland
- P015 Sustained RNA interference by cationized gelatin nanospheres targeting Raptor attenuates intervertebral disc degeneration in vivo**
Presenter: Yurube T, Japan
- P016 Topographical insights into the structural and compressive properties of facet joint cartilage**
Presenter: Greiner-Perth A K, Germany
- P017 Comprehensive proteomic analysis of laminin culture-induced mitochondrial functional alterations in human nucleus pulposus cells**
Presenter: Soma H, Japan
- P018 The transcriptomic and secreted factors of the intervertebral discs in STZ-HFD Type 2 diabetic mice show a diverse inflammatory chemokine milieu**
Presenter: Gonzalez C, USA
- P019 Comparison in the accuracy of thoraco-lumbo-sacral orthosis designed by a conventional contact casting technique with a plaster bandage versus by a new non-contact 3D digital scanning technique**
Presenter: Kumagai N, Japan
- P020 A notochordal-cell inspired approach instructing an iPS-based therapy for nucleus pulposus repair**
Presenter: Tryfonidou M, Netherlands
- P021 Safety and bactericidal effect of 222-nm ultraviolet C irradiation on the rabbit lumbar surgical site**
Presenter: Kanda Y, Japan

- P022 Effect of Osmotic Stress via TRPV4 Activation on Autophagy and Matrix Synthesis in the Rat Intervertebral Disc**
Presenter: Furuya M, Japan
- P023 Preoperative Identification of Lumbo-sacral Root Anomalies: Development and Validation of a Root Anomaly Predictive Score (RAPS) in Lumbar Spine Surgery**
Presenter: Naresh-Babu J, India
- P024 Novel Conditional Genetic Mouse Model and Unbiased High-Throughput Proteomics Provides Insights into Nucleus Pulposus Secretome and Tissue Crosstalk**
Presenter: Dahia C, USA
- P025 The Impact of Pelvic Incidence on T1 Slope and T1 Pelvic Angle in Biomechanical Models with Varying Spinal Curvature**
Presenter: Harris A, USA
- P026 Biokinetic Insights into Hip–Spine Relationship: Understanding Compensatory Mechanisms in Patients with Low Back Pain and Altered Pelvic Motion**
Presenter: Samartzis D, Brazil
- P027 The impacts of chronic low back pain on balance control in older adults: A functional near-infrared spectroscopy study**
Presenter: Wong AYL, China
- P028 Cervical Paraspinal Muscle Atrophy is Associated with Internal Carotid Artery Stenosis**
Presenter: Verna B, USA
- P029 Understanding the Role of Vascular Health in Cervical Muscle Atrophy and Disc Degeneration**
Presenter: Verna B, USA
- P030 Redistribution of Spinopelvic Motion After Comprehensive Exercise Therapy in Chronic Low Back Pain: A SpinalMouse® Analysis**
Presenter: Arita S, Japan
- P031 Post-fusion Facet Kinematics are Influenced by Disc Degeneration and Facet Anatomy**
Presenter: Mengoni M, UK
- P032 In vivo mechanical loading leads to tissue adaptation in vertebrae which diminishes in the later resting period**
Presenter: Erhard C, Germany

- P033 Comparing activity classification using lumbar, thoracic, and hip wearable sensors**
Presenter: Bell K, USA
- P034 Biomechanical Effects of Cement Augmentation and Prophylactic Vertebroplasty on Adjacent Segment Stability in Multilevel Spinal Fusion: Finite Element Analysis**
Presenter: Shin JW, South Korea
- P035 Orthospine Fitness: which markers of musculoskeletal health can explain complications in spine surgery?**
Presenter: Barbanti Brodano G, Italy
- P036 Restoring the Flexion-Relaxation Phenomenon through Isolated Lumbar Extension Exercise (ILEX) in Chronic Low Back Pain and Radiculopathy**
Presenter: Domokos B, Germany
- P037 Exploring Lumbar-Hip Muscle Interactions Using MRI-Based Quantification**
Presenter: Mielke A, USA
- P038 Comparison of Wrist- and Waist-Worn ActiGraph Step Counts and Activity Counts Cutpoints and Efforts to Harmonize Measurements in Individuals with Chronic Low Back Pain**
Presenter: Bell K, USA
- P039 Patients with lumbar disk pathologies exhibit impaired isometric lumbar extension strength which can be reversed by a 9-week ILEX based rehabilitation program - a retrospective case control study**
Presenter: Bruno D, Germany
- P040 Spinal Loading in Patients with Back Pain: A Large-Cohort Multibody Modeling Study**
Presenter: Lerchl T, Germany
- P041 IMU-based ambulatory pre-surgical assessment of Spinal Decompressive Surgery**
Presenter: Barbanti Brodano G, Italy
- P042 Optical- Electromagnetic Navigation-Guided Unilateral Laminotomy for Bilateral Decompression in Lumbar Spinal Stenosis: Enhancing Surgical Precision and Efficiency**
Presenter: Hai Y, China
- P043 Variable Selection Strategies for High-Dimensional Observational Data: A Combined Data-driven and Knowledge-based Approach to Phenotype Chronic Low Back Pain**
Presenter: Vo N, USA

- P044 AI-Based Automated Path Planning for Spinal Screw Fixation**
Presenter: Seong Y, South Korea
- P045 Multi-Modal Data Integration of Chronic Low Back Pain Cohort Reveals a Latent Variable**
Presenter: Dudli S, Switzerland
- P046 The Davis Bucket-Handle Technique: A Level-Spring Approach for High-Grade Lytic L5-S1 Spondylolisthesis**
Presenter: Davis J, South Africa
- P047 A Simple, Calibration-Free CT-Based Protocol (L2-L4 HU) Accurately Screens for Clinical Osteoporosis in Japanese Spine Surgery Patients**
Presenter: Kishimoto K, Japan
- P048 Gut Microbiota and Low Back Pain: A Comparative Study Among Community-Dwelling Older Adults**
Presenter: Yabuki S, Japan
- P049 Prevalence of Low Back Pain and its Association with Spinal Alignment Measured by Spinal Mouse in School-Age Children: KID Locomo Study**
Presenter: Teraguchi M, Japan
- P050 Lumbar Scoliosis in Aging Populations: Its Relationship with Low Back Pain and Muscle Loss — The ROAD Study**
Presenter: Arita S, Japan
- P051 Trends in the Prevalence of Lumbar Spondylolisthesis over a 10-Year Period in the ROAD Study**
Presenter: Nakanishi R, Japan
- P052 Prevalence of Diffuse Idiopathic Skeletal Hyperostosis and Associated Change in Pelvic Parameters**
Presenter: Baker J, New Zealand
- P053 Comparative evaluation of the predictive performance of the neutrophil-to-lymphocyte ratio (NLR), prognostic nutritional index (PNI), and geriatric nutritional risk index (GNRI) for postoperative surgical site infection after spinal surgery: a retrospective cohort study of 1,130 patients**
Presenter: Nanri T Japan
- P054 Unravelling the Spine-Gut-Pain Connection: Chronic Musculoskeletal Pain and Digestive Dysfunction in a large-scale population-based cohort of 110,689 individuals**
Presenter: Lam E, Hong Kong

- P055 Clinical and Radiographic Characteristics of Inflammatory Back Pain in Spondyloarthritis: A Comparative Analysis with Lumbar Disc Herniation**
Presenter: Takahashi H, Japan
- P056 Prevalence of comorbid cervical and thoracic spine pain in patients seeking care for shoulder pain: a health system analysis**
Presenter: Rhon D, USA
- P057 Diagnosis of traumatic cauda equina injury in clinical practice at a tertiary centre in Victoria, Australia**
Presenter: Beaumont X, Australia
- P058 A qualitative study of traumatic cauda equina injury**
Presenter: Beaumont X, Australia
- P059 Elite Climbers exhibit early signs of degenerative spinal changes; quantitative MRI reveals alterations undetected by conventional imaging analysis**
Presenter: Hebelka H, Sweden
- P060 Paraspinal lumbar muscles and disability in chronic low back pain – a scoping review**
Presenter: Juhlin J, Sweden
- P061 External Validation of a Reliable MRI Grading System for Central Canal and Lateral Recess Stenosis**
Presenter: Moojen W, Netherlands
- P062 Association Between Postoperative Decrease in Hounsfield Unit Values and Clinical Outcomes After Balloon-assisted Kyphoplasty**
Presenter: Tsuchiya K, Japan
- P063 Pedicle Morphological Changes in Thoracolumbar Vertebral Fractures: Implications for Safe Intermediate Screw Insertion**
Presenter: Hirano T, Japan
- P064 High level of physical activity and prominent sedentary behavior influence vertebral MRI signal intensity in adolescents**
Presenter: Brisby Enger S, Sweden
- P065 Effects of spinal loading during MRI on Modic signal intensity and volume in patients with low back pain and matched controls**
Presenter: Brisby H, Sweden

- P066 MRI-based vertebral bone quality score combined with fat infiltration of paraspinal muscles predicts adjacent segment degeneration following transforaminal lumbar interbody fusion**
Presenter: Sun X, China
- P067 Elevated Spinal Glucose Metabolism in Patients with Diffuse Idiopathic Skeletal Hyperostosis by 18F-FDG PET/CT**
Presenter: Sun X, China
- P068 Two-layer Pfirrmann classification system for grading lumbar disc degeneration**
Presenter: Kurata R, Japan
- P069 Association between Thoracic Cage Immobility and Pseudarthrosis after Osteoporotic Vertebral Fractures at the Thoracolumbar Junction**
Presenter: Hayakawa C, Japan
- P070 Assessment of Lumbar Intervertebral Disc Degeneration in Collegiate Rugby Players Using the Disc Signal Intensity Index (DSI2)**
Presenter: Oshita Y, Japan
- P071 Postoperative course of parasol rib deformity and its associated factors in neuromuscular scoliosis**
Presenter: Miyajima A, Japan
- P072 Multi-center Clinical Assessment of 3D surface-Based Risk Estimation in Adolescent Idiopathic Scoliosis**
Presenter: Zhang T, China
- P073 Evaluating the Diagnostic Utility of AI Trained on Axial, Coronal, and Sagittal CT Scans for Traumatic Lumbar Spinal Fractures**
Presenter: Lee H D, South Korea
- P074 3D MRI/CT Fusion Imaging for Translaminar microdiscectomy**
Presenter: Fujioka Y, Japan
- P075 Towards Understanding the Functional Basis of Pain and Instability in Lumbar Spondylolysis: Insights from a Paraspinal Muscle Radiomic Study Utilising Dynamic Upright MRI**
Presenter: Naresh-Babu J, India
- P076 Prediction of incident vertebral fractures by opportunistic CT screening and FRAX: A cohort study**
Presenter: Kirschke J, Germany

- P077 Evaluation of postoperative bone strength changes in the lumbar spine following decompression surgery using vertebral bone quality scores**
Presenter: Okano I, Japan
- P078 Identifying Preoperative Predictors of Clinically Meaningful Outcomes in Chronic Low Back Pain: A Detailed MCID-Based Analysis**
Presenter: Harris A, USA
- P079 Long-Term Efficacy and Safety of Basivertebral Nerve Ablation for Chronic Low Back Pain: A Single-Center 5-Year Prospective Study**
Presenter: Harris A, USA
- P080 Minimal clinically important differences of the Japanese Orthopaedic Association Back Pain Evaluation Questionnaire for patients with lumbar spinal stenosis undergoing nonsurgical treatment: a secondary analysis of a randomized controlled trial**
Presenter: Minetama M, Japan
- P081 Patients' experiences of real-time group telerehabilitation for chronic low back pain - An interview study**
Presenter: Sivertsson J, Sweden
- P082 Romosozumab Versus Teriparatide in Osteoporotic Vertebral Fractures: A Comparative Radiologic Analysis**
Presenter: Jung Y S, South Korea
- P083 Diagnostic strategy for patients with spinal metastases of unknown origin**
Presenter: Ujigo S, Japan
- P084 Evaluating Online Acceptance and Commitment Therapy Plus Exercise Versus Patient Education Plus Exercise for Chronic Low Back Pain in Older Adults: A Pilot Randomized Controlled Trial**
Presenter: Wong A, Hong Kong
- P085 Which types of lumbar disc disorders are effectively treated with Platelet-rich Plasma (PRP) intradiscal injection therapy?**
Presenter: Akeda K, Japan
- P086 International perspectives on low back pain: Insights from people with lived experience in Australia and the USA**
Presenter: Popovich J, USA

- P087 Title Effects of Romosozumab on Lumbar Spine Trabecular Bone Score in Postmenopausal Osteoporosis**
Presenter: Iga T, Japan
- P088 Reliability and Validity of the OIC Check Sheet for Constipation Assessment in Patients With Lumbar Spine Disorders**
Presenter: Koyama S, Japan
- P089 Assessing Physical Activity in Chronic Low Back Pain: A Deep Learning Approach to Harmonize Wrist and Hip Worn Data**
Presenter: Smuck M, USA
- P090 Isolated Atypical Pedicle Stress Fractures in Patients on Pro-longed Bisphosphonate Therapy: Report of Two Cases and a Literature-Based Proposal for Diagnostic Criteria**
Presenter: Auron M, Israel
- P091 Are All Pain Scales the Same? Comparing Three Measures of Pain Intensity in Chronic Low Back Pain With and Without Scoliosis**
Presenter: Febbo F, Italy
- P092 Hip, Abdomen, and Paraspinal Muscle Morphologies and Their Correlation With Pain and Disability in Degenerative Lumbar Scoliosis Patients**
Presenter: Lee H D, South Korea
- P093 Are Amoxicillin effective in selected patients with low back pain and Modic changes?: an exploratory subgroup analyses of a randomized placebo-controlled trial (the AIM-study)**
Presenter: Bråten L C, Norway
- P094 Lumbar braces and other assistive devices for the treatment of chronic low back pain**
Presenter: Zaina F, Italy
- P095 Influence of Surgery Type, Preoperative Scores, and Complications on Recovery Trajectories in Patients Undergoing Spinal Surgery: A Retrospective Cluster Analysis**
Presenter: Harris A, USA
- P096 Establishing Pre-Operative PROM Thresholds to Predict Surgical Outcomes in AIS Patients Undergoing Deformity Correction**
Presenter: Harris A, USA

- P097 Decoding the Impact of Thoracic Flexibility on Cervical Alignment: Advanced Predictive Modeling of Disability Outcomes in Posterior Cervical Fusion**
Presenter: Harris A, USA
- P098 Impact of Comorbidities, Demographic Factors and Antibiotic Use on Survival Outcomes in Patients with Hematogenous Spinal Osteomyelitis: A Cox Proportional Hazards Model Analysis**
Presenter: Harris A, USA
- P099 Radiographic Predictors of Functional and Pain Outcomes in Scheuermann's Kyphosis: A ROC-Based Minimal Clinically Important Difference (MCID) Analysis**
Presenter: Harris A, USA
- P100 The impact of GLP-1 RA use on surgical spinal outcomes: a systematic review and meta-analysis**
Presenter: Harris A, USA
- P101 Health Literacy, Treatment Choice, and Outcomes in Adult Spine Patients: A Systematic Review**
Presenter: Harris A, USA
- P102 Surgical outcomes of microendoscopic lumbar interbody fusion (MELIF) with PPS**
Presenter: Yukawa Y, Japan
- P103 Long-Term Reoperation Risks After Cervical Artificial Disc Replacement (ADR) versus ACDF: A Nationwide Cohort Study of Over 120,000 Patients from 2010 to 2023**
Presenter: Shin J W, South Korea
- P104 Spinopelvic sagittal realignment and incidence of adjacent segment disease after single-segment posterior lumbar interbody fusion using 12° lordotic cages—a 2-year prospective cohort study**
Presenter: Matsumoto T, Japan
- P105 Multi-level surgery affects cervical disc arthroplasty prosthesis performance**
Presenter: Koh E, Singapore
- P106 Does segmental kyphosis matter in cervical disc arthroplasty?**
Presenter: Koh E, Singapore
- P107 Spinal Surgeries for Lumbar Spinal Stenosis Improved Mental Health: Analysis of Related Factors in a Multicenter Study: Second Report**
Presenter: Takegami N, Japan

- P108 Cervical Muscle Morphology and Cervical Alignment Changes Following Lumbar Pedicle Subtraction Osteotomy**
Presenter: Verna B, USA
- P109 Bundle interventions to reduce postoperative wound infections following spinal implant surgery**
Presenter: Dymen P, Sweden
- P110 Influence of Dorsal Root Ganglion Position on Outcomes of Microendoscopic Lumbar Foraminoplasty at L5/S1**
Presenter: Takahashi S, Japan
- P111 Administration of Ferrous Sucrose Combined with Erythropoietin Helps Rapidly Correct Postoperative Anemia After Posterior Lumbar Decompression and Fusion Surgery: A Prospective Randomized Controlled Trial**
Presenter: Sun X, China
- P112 Anterior wall perforation and cranially directed trajectory of pedicle screws are the risk factors for upper instrumented vertebral fracture after spinal fixation in patients with osteoporotic vertebral fracture**
Presenter: Yagura K, Japan
- P113 Soft-landing constructs with hooks and tethers for the prevention of proximal junctional kyphosis after long-segment fusion in adult spinal deformity**
Presenter: Aoki Y, Japan
- P114 Advantages of vertebroplasty combined with posterior fixation using cement augmented pedicle screw for unstable osteoporotic vertebral fractures**
Presenter: Shiina I, Japan
- P115 Two-Year Radiological Fusion Outcomes Following Biptoral Endoscopic Transforaminal Lumbar Interbody Fusion Using Banana-Shaped Interbody Cages**
Presenter: Kim S B, South Korea
- P116 Clinical factors influencing central sensitization scores in patients with lumbar spinal canal stenosis**
Presenter: Akeda K, Japan
- P117 The Leverage of Technique: High-Grade Spondylolisthesis Treated with Archimedes Manoeuvre – Insights from a Single Centre**
Presenter: Bali A S, India
- P118 Spinesafe: integrating non-technical skills and human factors to improve safety in spine surgery -preliminary observational findings from an ongoing study**
Presenter: Barbanti Brodano G, Italy

- P119 How many point-to-point to be registred when using the intra-operative AIRO® CT-scan spinal navigation system at the lumbar spine?**
Presenter: Rousseau MA, France
- P120 Microendoscopic Laminotomy with Emphasis on the Articular Segment in Lumbar Spinal Stenosis**
Presenter: Kozaki T, Japan
- P121 Superiority of Fully Percutaneous Multi-Columnar Stabilization via Vertebral Body Stenting (VBS) and Fenestrated Screw Fixation for Unstable Osteoporotic Vertebral Fractures (OF4 or 5)**
Presenter: Takeuchi H, Japan
- P122 Analysis of the risk factors in the assessment of adjacent vertebral fracture after balloon kyphoplasty**
Presenter: Tanimoto K, Japan
- P123 Bone Fusion Patterns in Lateral Lumbar Interbody Fusion for Adult Spinal Deformity**
Presenter: Yokozeki Y, Japan
- P124 Use of Coagulated Vertebral Bone Marrow as an Autologous Cell Therapy and Multifunctional Scaffold for Spinal Fusion – A Prospective Randomized Study**
Presenter: Barbanti Brodano G, Italy
- P125 Transient postoperative blindness following scoliosis surgical correction: a case report**
Presenter: Agbazue D, South Africa
- P126 Severe congenital scoliosis with lumbosacral dissociation in a patient with cardiopulmonary compromise: a case report**
Presenter: Agbazue D, South Africa
- P127 Limitations of shortening the fixation range when using penetrating endplate screws for DISH thoracolumbar vertebral fractures**
Presenter: Ishikawa T, Japan
- P128 Improvement in Low Back Pain Following Endoscopic Decompression for Spinal Stenosis**
Presenter: Auron M, Israel
- P129 Microdiskectomy under loupes magnification**
Presenter: Paxinos O, Greece

- P130 Can Ultrasonography Guided Anterior Foraminal Decompression for Proximal Cervical Spondylotic Amyotrophy Make Surgery Safer?**
Presenter: Nakata S, Japan
- P131 Changes of pelvic parameters in Adjacent Segment Disease Following 1–2 Level PLIF : postoperative 4-Years Follow-Up**
Presenter: Hong C H, South Korea
- P132 Isolated Mid-Lumbar (L2, L3, L4) Traumatic Burst Fractures: Single Centre Experience of Operative versus Non-Operative Treatment**
Presenter: Naranbhai N, South Africa
- P133 Hybrid Spinal Surgery: Combining Open Anterior Spinal Surgery with UBE Posterior Decompression and Fusion in Degenerative Lumbar Spine Pathology**
Presenter: Geldenhuis E M, South Africa
- P134 Learning Curve Analysis for Surgeon Adopting Unilateral Biportal Endoscopic TLIF Surgery: Retrospective Analysis Across the First 115 Cases**
Presenter: Geldenhuis E M, South Africa
- P135 Unilateral Biportal Endoscopic Discectomy versus Tubular Lumbar Microdiscectomy: A Retrospective Analysis of Outcomes and Complications Treated by Either Modality**
Presenter: Geldenhuis E M, South Africa
- P136 Lateral Lumbar Interbody Fusion Both with and without Posterior Pedicle Screw Instrumentation Improves Back Pain in Patients with Degenerative Disc Disease Early in the Post-operative Period**
Presenter: Barber L, USA
- P137 A Study on Compression Manipulation of Percutaneous Pedicle Screws (PPS) - Based on Experience with Cage Backout Cases**
Presenter: Hatakeyama K, Japan
- P138 Mid-lumbar (L2, L3, L4) Tuberculosis of the Spine. Single Centre Experience of Operative versus Non-Operative Treatment**
Presenter: Afrika N, South Africa
- P139 Impact of diffuse idiopathic skeletal hyperostosis on mid- to long-term outcomes after posterior lumbar interbody fusion for lumbar degenerative spondylolisthesis: An analysis of cases with over 5 years of follow-up**
Presenter: Ozaki M, Japan
- P140 Lumbar Spinal Stenosis with Diabetes as a Novel Predictor of Dementia and Mortality, Especially in Men: A Decade-Long Cohort Study**
Presenter: Kobayashi H, Japan
